

K&N Installation Instructions Part Number 33-2147

This filter fits: **See current K&N catalog for complete listing**

FREE K&N DECAL** To register your warranty, please see us online at knfilters.com/register. **FREE K&N DECAL

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST be followed to ensure a proper fit and seal of the K&N Filtercharger®.**

1. Remove the airbox lid.
2. Remove the filter element from the airbox base.
3. Wipe out any dust or dirt from the airbox with a damp rag.
4. Using the supplied tube of grease, liberally apply a coat of grease to the sealing surface of the clean side of the airbox lid. Additional grease may be purchased in an 6 oz. tube from any K&N retailer. (See Fig 1.)
5. Install the pre-oiled K&N FILTERCHARGER into the airbox base.
6. Re-install the lid onto the base and close.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
