

INSTALLATION INSTRUCTIONS

Part Number YA-8002

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

INSTALLATION

1. Remove the stock air filter and the stock air filter screen.
Note: The stock air filter screen will not be used with the K&N Filtercharger.
2. Carefully clean the inside of the air box.
3. Apply a thin layer of the provided K&N Sealing Grease in the air box base. (Fig. 1)
4. Install the K&N Filtercharger into the air box with K&N logo and part number facing up.
Note: If the stock air flow restrictor is being used, install it on top of the K&N Filtercharger. If the restrictor is not being used, jetting changes may be necessary.
5. Reinstall the air filter holder. (Fig. 2)
6. Reinstall the air box lid and fasten the clips.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
